Greg Paskal

Greg has been involved in hardware and software testing for more than 20 years. He is currently the lead Quality Assurance engineer for www.kinkos.com, and other Web-based projects within Kinko's.

Greg is highly versed in many aspects of Web-based technologies including HTML, JavaScript and PHP. He also has a broad understanding of Web architectures including Web servers, routers, DHCP and DNS servers. Greg's development experience includes custom automation software, e-commerce solutions, children's games and specialized Web applications.

You can find more information about Greg and his passion for technology at his Website at www.GregPaskal.com or write him at Greg@GregPaskal.com.
